©KATIMAGE UA0001 KAT IMAGE / HELP UKRAINE

The KAT IMAGE Org. has been actively fundraising money to help create better living conditions for children in Africa, specifically those in Turkana, Northern Kenya. Given the current crisis in Ukraine we wish to turn our fundraising efforts towards providing necessary humanitarian resources to the most vulnerable – mothers and children affected by the war, including children with disabilities.

The horrific situation we are witnessing has prompted us to begin to provide support to the thousands of families affected by devastating consequences of this war. Families are torn apart and mothers and children have become refugees overnight. Millions of them are and will be suffering in unthinkable ways. They are not as fortunate as our children and are facing the multi-faceted effects of war trauma.

As is our tradition, we offer photographic images from around the world to purchase at a minimum price of 50 euros. However, you may offer more if you wish to. 50% of all funds will be donated to the Embassy of Ukraine, Bratislava in Slovakia and to a non-governmental, non-profit organization People in Need Czech republic who will allocate funds where needed to the most vulnerable while assuring fast and transparent help. Monthly reports will be available to all donators.

The chosen image or images will be provided in a fine art print version on a high quality paper including passepartout with a certificate of authenticity included. If you wish, the chosen image or images may be delivered in a digital version for further use as a wallpaper or as a screensaver for your personal or office use.
